Backyard Fence Inc. prides itself on using 80+ pounds of mixed concrete on every post (No Dry Bagging). We also have a hole routed at the base of every post to allow the concrete to fill the base and create a better bond with the footing. This method fights heaving, and ensures that your fence will look as good as the day of install for years to come. After all.... Vinyl Is Final!

Alumi-Guard™ Aluminum products are constructed with heavy wall aluminum extrusions and are finished in Armor-Guard™ TGIC polyester powder coating. Tested in Florida's hot, humid, high salt concentrated environment, our finish surpasses the 8000-hour salt spray test—which is more than double what the

AAMA mandates! Because Armor-Guard™ powder coating is twice as thick and twice as hard as baked on enamel finishes, it is much more durable and will look attractive for many years to come.

Available in black, Alumi-Guard's Fence and Railing products are protected by their LIFETIME LIMITED WARRANTY.

VINYL COATED SYSTEM

All Black System

GALVANIZED SYSTEM

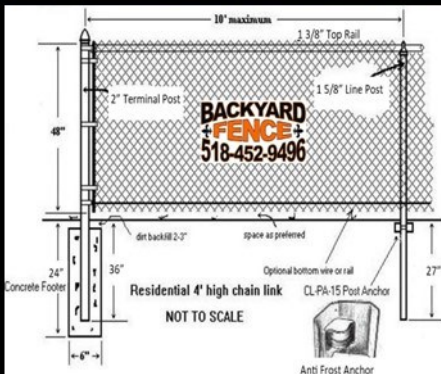

All Galvanized System

GALV/VINYL SYSTEM

Galvanized with Black Wire

Available in standard gauge 4' and 5' heights, a Chain Link Fence System from Backyard Fence Inc. provides an economical, low maintenance barrier for any swimming pool, pet, or play area.

The 48" tall ALL BLACK SYSTEM meets the N.Y.S. Pool Code, and is an economical solution to protect pets and loved ones from entering the pool area when not in use.

Bottom Tension Wire may also be added to help prevent dogs from pushing out at the bottom at an extra cost.

Our tried and true installation methods using a pneumatic post pounder to drive in posts, then using anti-frost anchors on line and terminal posts, as well as substantial hand mixed concrete footings on gate posts, withstand the test of time in our harsh Northeastern climate.

Capital Region's Largest Outdoor Showroom

Our mission at **BACKYARD FENCE INC.** is to provide superior customer service, and help you find the right material and layout to fit your needs. We believe in the old fashioned ways of putting the customer first and letting our honesty and integrity lead the way. Our family's history in Capital Region fencing goes back several generations and we put our experience to work for you.

Melissa, Jerry, and the rest of the family are eager to earn your business, and make your fence purchase a pleasant experience from start to finish. We thank you for the opportunity.
