A PVC fence system from Backyard Fence can provide a beautiful, low maintenance, and long lasting barrier between properties or settings. Illusions Vinyl Fence is made from 100% Pure Virgin Vinyl, it's F964-13 compliant and VMA Certified. Products are manufactured using Rigid Poly Vinyl Chloride (PVC) compounds for exterior-profile extrusions that meet the requirements of ASTM Specification D4216. Our tried and true installation methods, such as using over 80 pounds of hand mixed concrete to form a 9"x 32" footing on every post, withstand the test of time in our harsh Northeastern climate. This approach best defends against frost heaving. Illusions Vinyl Fence is made in America and protected by a Lifetime Limited Warranty.

Grand Illusions is the most comprehensive line of color and woodgrain vinyl fence products available today. Illusions Vinyl Fence has created a unique process that bonds the color to the vinyl at a molecular level (similar to the finish on a car) for industry-leading color retention. With over 60 standard styles of vinyl fencing that can be mixed and matched in 35 colors and 5 authentic woodgrains, no other company can even come close to the available choices of colors and styles Illusions is able to provide for you.

From backyard pools to pet enclosures, Backyard Fence Inc. Aluminum fences can elegantly add protection to your property. Alumi-Guard Aluminum products are constructed with heavy wall aluminum extrusions and are finished in Armor-Guard TGIC polyester powder coating. With these processes, our material has surpassed 10,000 hours in a salt spray chamber, more than triple that which is required by FGIA 2604-21 specifications. Because Armor-Guard powder coating is twice as thick and twice as hard as baked enamel finishes, it is much more durable and will look attractive for many years to come. Our tried and true installation methods, and use of substantial hand mixed concrete footings on every post, withstand the test of time in our harsh Northeastern climate. Alumi-Guard Aluminum is made in America and protected by a Lifetime Limited Warranty.

4' All Galvanized

Available in standard gauge 4' and 5' heights, a Chain Link Fence System from Backyard Fence Inc. provides an economical, low maintenance barrier for any swimming pool, pet, or play area. The 4' tall Black Chain Link meets the N.Y.S. Pool Code, and is an economical solution to protect pets and loved ones from entering the pool area when not in use. There are two color systems to choose from: Black and Galvanized, with matching framework available. Bottom Tension Wire may also be added, at an additional expense, to help prevent dogs from pushing out at the bottom. Our tried and true installation methods of using a pneumatic post pounder and anti-frost anchors on line and terminal posts, as well as substantial hand mixed quick set concrete footings on gate posts, withstand the test of time in our harsh Northeastern climate.
